MASHINDI MEDICAL MISSIONS

MISSION TRIP 2024

This summer, mission teams led by Steve Donaldson and Dr. Chauncey made significant strides in Zimbabwe, supporting the Mashindi Medical Clinic with solar panel installations, painting, medical evangelism, and leadership seminars. Key projects included upgrading the clinic and fostering community outreach through church visits. With your continued prayers and support, we aim to open the clinic in 2025. Thank you to those who joined us and we invite you to join us on our next trip!

CHURCH PLANTING

To those who are gifted in Pastoral Ministry and advancing the Lord's work through planting churches and church leadership seminars, we have a place for you. Mashindi Medical Mission has planted 21 churches in 2024 and all these churches are in a dire need of Pastoral leadership. Please support our Pastors so that we can recruit many more students for the work ahead of us.

PRAYER REQUESTS AND UPDATES

Breakthrough Projects 2024:

- **6** motorcycles donated to pastors for easy traveling whilst spreading the gospels in the rural areas.
- **9** sewing machines donated to local women for economic empowerment and skill development.
- **3** new pastoral graduates will be leading and overseeing four churches in the Zaka Region.

Mashindi Medical Missions Immediate Needs

- Housing Land costs: \$44,000.00
- Equipping the Clinic with beds & kitchen equipment
- Support for Clinic Development.
- Staff Housing
- Support for Pastors and Pastoral work
- Children's home Funding and Care givers
- Scholarships for College Students

A Season of Bountiful Blessings

We are pleading with you as we now focus on opening the clinic summer of 2025. We are in a dire need to purchase land for housing and payments are already overdue as construction has to begin January of 2025. During this season of thanksgiving, it's a season that we all celebrate what God has done to us and Mashindi Medical Mission celebrates the partnership that we have with you in supporting us for many years. We pray and celebrate this season that you and your church can continue to bless us for Mashindi Medical Mission.

BABY TWINS SUCCUMB TO CHOLERA

Mashindi Medical Missions was blessed with another set of twins to sponsor this summer. Sadly, the infants fell ill and both died from Cholera. We are committed to serving the widows and orphans and will continue the construction of the children's home in tandem with the hospital.
